FOR IMMEDIATE RELEASE

NEW PORTABLE HELICOPTER LETS PILOTS HONE THEIR FLYING SKILLS ALMOST ANYWHERE

Command Force Micro Chopper Patrol – Small on Size, Big on Fun!

SAN DIEGO, CA—(August 8, 2006) Attention rotorheads! A new helicopter toy with retro flair is landing on shelves for 2006. **Jasman's** latest offering combines the fun of flying a dual control chopper with a nod to the nostalgia of classic toys from the past. The exciting **Command Force Micro Chopper Patrol** will provide a new generation of kids with plenty of high-speed helicopter thrills.

The tethered chopper rests on its helipad along a 12" base. Separate flight control levers for throttle and pitch allow precision flight movements up, down, forward and backward for 360° of flying action! The **Command Force Micro Chopper Patrol** comes with two supply crates that a skilled pilot can pick up with the helicopter's retractable grappling hook.

Pull back on the throttle and your bird is in the air! Once you've stabilized your elevation, use the pitch control lever to fly forward or backward 360°! Open up the throttle and zip around the sky, or hover gently and put the helicopter into some precision maneuvers. Anything is possible with the **Command Force Micro Chopper Patrol!**

Once you've mastered the flight controls, the fun has only just begun! Try to beat your best time for hooking the crates and dropping the supplies on the helipad. Or match up your helicopter against your friends' Chopper Patrols and see which pilot is fastest! The portable design allows you to take it to a friend's house, a park, on a long trip... just about anywhere!

Command Force Micro Chopper Patrol is available in three licensed versions with cool graphics and body styling – collect them all! **AH-64 Apache™**, **AH-6 Little Bird™**, **AH-1 Super Cobra™**. **Ages 5 and up. SRP: \$12.99**
